Each year, DoubleTree by Hilton uses nearly 1 BILLION CHOCOLATE CHIPS to ensure that every guest who walks through the doors of their 500+ hotels receives a warm welcome and one of their signature DoubleTree Cookies.

That's enough chocolate chips to...

- Reach the top of the world's tallest building, Dubai's Burj Khalifa, 11,580 times.
- Reach the summit of Mount Everest, 1,806 times.
- Line a path from Anchorage, Alaska to the bottom tip of Key West, Florida.
- Circle the equator every 4 years.
- Match the weight of the London Eye, 1.07+ million pounds.
- Line the Golden Gate Bridge, 3,510 times.
